Swan Island Overview

2nd place Shauna Slaven

3rd place Michaela Slaven

Due to strong winds in the gorge, the Hood River tournamnet was re located to Swan Island. While it is dissapointing to not have fished great waters like Hood River this August, it is always better to err on the side of caution with the wind the gorge can deliver, and we appreciate the tournament director for having to making the tough umpopular decision.

First place went to the team of Bob Judkins and Dave Lenihan. This "pan fisherman" proved his knowledge of the Willamate once again bringing in a 12 Lb 2oz. Bag. Bob credited his trusty white pepper bitsy tube for the teams success. They had a good limit very early and were able to cull their way to a victory.

Second place went to husband and wife team Joe and Shauna Slaven with 11Lb 6oz. They reported not having nearly the success that Bob and Dave had early in the morning. They struggled to catch fish, but managed to bring in a fith keeper by the end of the day. Shauna also caught the big fish of the tournament weighing in at 3Lb even, she caught it on her "good ole Senko".

Third place went to the other husband and wife team of John and Michaella Slaven with 11Lb 4oz. John credited their success on his ability to find fish and capatilized on Michaella's ability to actually catch the fish. According to John, Michaella caught all five fish that were weighed.

Despite the negative outlook of the lower Willamate shared by many club members several teams brought in solid bags of fish. This year the Willamate has seemed to improve over past years, or better yet club members are improving their skills on this water. As Bob Judkins has proved, it pays to know local waters such as the Willamate to insure success throughout the season..
